

What is the opportunity?

DeepLearn.ing is looking for a Full-Stack Engineer for our Product Engineering Team who is passionate about code craftsmanship, continuous improvement and agile development. Experience crafting applications using Angular, Ember, React, or other Javascript MVC frameworks is a must. We are looking for you to bring a healthy mix of top-notch work ethics and karaoke mastery to our uniquely vibrant workspace.

What will you do?

- Work closely with a collaborative, (loosely) agile (and sometimes waterfall) team
- Contribute scalable software artifacts that are easy to understand and simple to maintain
- Debug, troubleshoot and fix issues across multiple browsers
- Contribute to a state of the art single page application using cutting-edge build tools

What do you need to succeed?

Must have

- CS, Math or Engineering degree and/or 3+ years of relevant experience
- Penchant for great algorithm design / strong CS fundamentals
- Strong knowledge of the Javascript language (prototype inheritance, closures, OPP).
- Passion for usability and accessibility
- Strong TDD or BDD fundamentals, including experience with Gherkin language syntax
- Experience developing event driven front-end components
- Experience developing backend services in Python, PHP or Ruby

Nice to have

- Knowledge and understand of Spark, Kafka, Cassandra, HBase, Hadoop
- Experience implementing high-performance Service Oriented Architectures
- Development of applications utilizing one or more of the following web services technologies: JSON-RPC, JSON-WSP, Web Services Description Language (WSDL), REST, RPC, or XML
- Demonstrable machine learning experience and knowledge
- Expertise in any of Docker, Puppet, Chef or Ansible
- Contributions to open-source or personal projects

What's in it for you?

- Opportunity to work on cutting-edge machine learning problems from a cross section of industries
- Network and develop relationships with a variety of industry decision makers, subject matter experts, software developers, and machine learning specialists
- Participate in feats of strength and lively company events to help build your career tool kit while enjoying a work-life balance
- Work in a dynamic, collaborative, progressive, and high-performing team
- Enjoy a comfortable company work environment located in downtown Toronto that encourages self-expression, casual attire, and whistling while you work
